

CUSTOMER TESTIMONIALS

Thank you Econo-Lite for going above and beyond to help make my store gloriously illuminated...I feel that the investment I made in changing the lighting in my store to Econo-Lite more than paid for itself within the first six months with a 25% increase in sales and lower energy costs."

-Chris Harrison, Harrison's Diamonds & Designs

Just wanted to let you know that the track lights are fantastic! Almost the first words out of our customers when they walk in is how beautiful the store is lit up and how nice the place looks...If it weren't for the Econo-Lite lights and your help, our store wouldn't be the hit that it is."

-David Oroszi, Lotus Jewelry Designs

"This is our 'Thank You' to everyone at Econo-Lite. We recently completed a top to bottom renovation of our store...We are located in Norman, Oklahoma so everything was done without Econo-Lite ever setting foot in our business. We ordered the lights Econo-Lite suggested and our contractor installed them exactly as Econo-Lite suggested. We couldn't be happier with the results... We have been amazed at how many times we have heard how customers say how much they love the lighting in our store and what a great difference it has made. We know that the jewelry literally pops out of the cases under the lights. Thank you again for helping us create the store we envisioned. We're so happy we trusted the professionals at Econo-Lite."

-Newt and Gina Mitchell, Mitchell's Jewelry

When IJO needed lighting, we chose Econo-Lite. Their fixtures make jewelry look fantastic. It's not just my opinion. The IJO exhibitors were so enthusiastic that they gave the lighting a round of applause! If you want your jewelry to look the best it possibly can, you need not look any further. Buy Econo-Lite!"

- Mary Moses Kinney, IJO Merchandising Director

I've always been impressed with how great our diamonds look under Econo-Lite's fixtures ... I highly recommend these lights to any jeweler."

-Moshe Klein, Director of Sales, The Julius Klein Group
